Title: Risk Game: Jigsaw Puzzle

Audience: 5 - 200

Goal: To familiarize the audience on the concept of ERM process (e.g. risk identification, risk assessment, decision making and need for data gathering)

Duration: 30 minutes to 2 hours based on the number of puzzles, discussion and lessons learned

Required Items: Risk Jigsaw Puzzle Kit

How to play:

1. Have participants work in a group of 5 at each table.
2. Have two envelopes at each table. Envelop (1) and Envelop (2).
3. Instruct participants to open the envelop (1). It will contain the Scenario.
4. Let participants read the scenario and discuss what it means.
5. Have participants from each table identify and rank on risks described in the scenario
6. Now ask participants to open the envelop (2). It will contain a puzzle. Each puzzle is a picture of a risk that participant may have identified.
7. Once the puzzle is completed, ask participant to flip the puzzle pieces.
8. This will reveal some facts associated with the risk
9. Ask participants to rank the risks (as done in step 5).
10. Discuss the difference in the result and lessons learned.
